Sir:

With regard to the Interview Summary mailed October 26, 2007, which was part of the pending Notice of Allowance, the following is a statement of the substance of the interview (actually a series of telephone calls and emails) as required by the Examiner.

Applicant was contacted by the Examiner to authorize entry of his claim amendments to correct informalities that do not affect the scope of the claims; to broaden the scope of the methods to treating pain, fever, or inflammation (see claims 9, 11 and 17); to delete "D" and 5H-furan-2-one compounds to be consistent with other amendments (see claims 13 and 19); to delete a superfluous drawing (see claim 20); and to cancel claim 21 (possibly to be prosecuted in a divisional application). Applicant authorized entry of the Examiner's proposal.

Respectfully submitted,

NIXON & VANDERHYE P.C.
